

Chapter 5

Lesson 8: Decal

Lecture

What does the decal command do?

What are three file types that can be used as an image?

What happens if the link button is checked?

The size of the image can be changed but the _____ cannot.

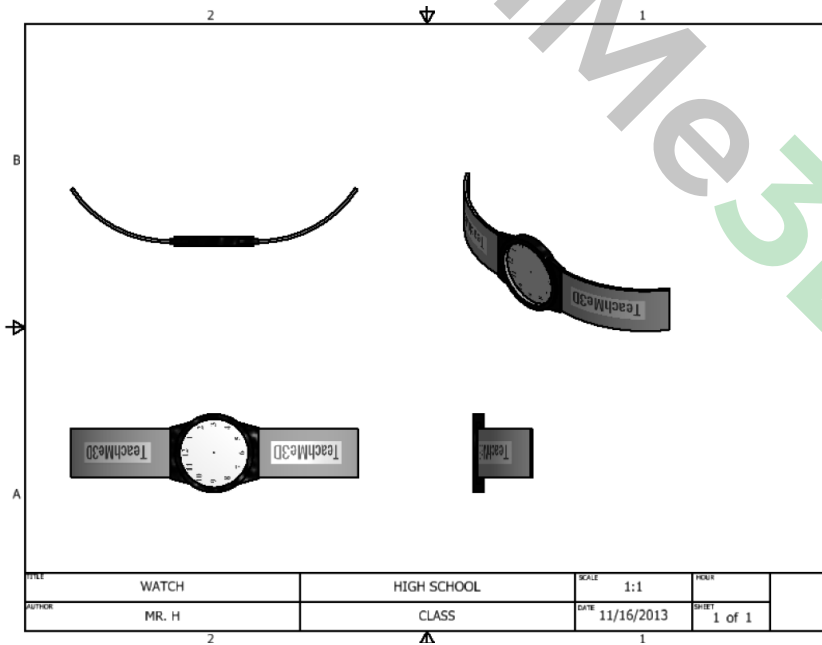

What does the Chain Faces option do?

Demonstration

Open the file called Watch in the 5.8 Decal folder. Follow along with the demonstration and Save when complete.

Activity

Find an image of your own and apply the Decal on the other watch band. Create a Multi-View drawing and place the views as shown below. Save as Watch Sheet in the 5.8 Decal folder.

Challenge

Go back and open the Balsa Wood Plane that was created in 3.2. Use the split tool and customize the colors on the parts you created.
